

### My Success Story with Beverly Hills Physicians.com . . .

I cannot describe in words what the surgery meant to me. Dr. Sadrieh, Shu Shu and Jessica were phenomenal! Dr. Sadrieh should be commended on every aspect of his procedure. Dr. Sadrieh treated me as though I were a family member and not just a patient. I have always wanted to be normal, wearing simple flip flops was out of the question due to my foot problems. Now six months later I feel as though the surgery made/changed my life. Dr. Sadrieh, thank you for your kindness, gentleness, patience and above all your professionalism. Thank you Shu Shu, you have been my rock through this entire experience. Without Shu Shu or Jessica I would have been lost. Thanks Dr. Sadrieh for the phone calls and for treating me with such respect. I hope God continues to bless you because you are deserving of every good things that comes your way!

Thanks for caring so much,  
M.T.

P.S. My feet look grrreat!
